**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 7 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. See the rejection under 35 U.S.C. 112, second paragraph below. This Office action considers a combination of an activating mechanism, an intercept valve and a spray gun under claim 1.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Regarding claim 1, the preamble recites an "activating mechanism" with an intended use on an intercept valve on a spray gun. The body of the claim recite relationships between the activating mechanism, the intercept valve and the spray gun.

It is uncertain whether applicant is claiming the combination of an activating mechanism, an intercept valve and a spray gun or the subcombination of an activating mechanism. This Office action considers the combination.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Takagi (5,979,800).

Takagi discloses a spray gun comprising: a manually operated control lever 6; an intercept valve 7; an activating lever 4; a pin 3.

6. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Becker et al. (4,005,824).

Becker discloses a spray gun comprising: a manually operated control lever 31; an intercept valve having pin 39; an activating lever 48; an elastic element 49.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Zippel, Nystuen, Bramsen et al., and Chih disclose spray guns having a control lever and an activating lever.
